

## Lower School Level

### Math Web Sites for Practice, Fun, and Family Math

<http://nlvm.usu.edu/en/nav/vlibrary.html>

Click a grade span and topic for a wide variety of activities. All grades.

<http://www.shodor.org/interactivate/activities>

Many excellent games and activities, grades 1 – 8. “Arithmetic Four” and “Arithmetic Quiz” can be used to practice basic facts and computation.

<http://www.aplusmath.com/Games/index.html>

A variety of games for basic facts and computation skill practice. Grades 1 – 5.

<http://www.bbc.co.uk/schools/numbertime/games>

Fun games for early math concepts. “Test the Toad” has addition and subtraction facts practice. “Mend the Number Square” builds understanding of place value up to 100. Grades K – 2.

<http://investigations.terc.edu/families/helping/doingmath.cfm>

Advice on sound strategies for helping your child deepen his/her understanding of math. (The entire “for families” area of this web site is worth exploring further!) For parents.

[http://investigations.terc.edu/library/Games\\_index.cfm](http://investigations.terc.edu/library/Games_index.cfm)

Great online games for building all dimensions of mathematical skill and understanding. Grades K – 5.

<http://mixinginmath.terc.edu/materials/athomewithmath.cfm>

Math activities for everyday situations around the house. Grades K – 5.
