

Tallest Tower Science Design Challenge!

Your task is to build the tallest, freestanding structure possible with the materials provided. Have fun and be creative!

Materials List:

- 100 Mini Marshmallows
- 8 Regular Marshmallows
- 1 Box of spaghetti
- 8 Linguini noodles
- 1 Lasagna noodle

Awards will be given for:

- Lower School Tallest Tower
- Middle School Tallest Tower
- Upper School Tallest Tower

Rules for Submitting: Create a 1-minute video or take photographs that show the following things:

- Your design process (sketch of your designs or different models)
- Your final structure
- Evidence of its height (you could measure it on camera or take a photo)
